The 2012-2013 Safe Haven Grant priorities for funding will be **Evidence Based Prevention Programs** and **School Resource Officer Programs**, certified through the National Association of School Resource Officers. This grant is intended to supplement funding for programs in the school districts.

The goals of the FY 2012-2013 Safe Haven Grant are:

- 1.) To afford students and staff opportunities to develop the skills and strategies necessary to prevent violent and potentially violent situations.
- 2.) To enable schools to identify and acquire the programs and resources necessary to apply research-based models and proven practices for curriculum, policies, procedures and instruction.
- 3.) To assist schools in creating a physical environment that promotes the safety and well-being of students and staff within the school campus.

A safe school provides a physical and social environment in which students are able to learn and achieve to their fullest potential. A safe school environment also enables educators, administrators and other staff to support students in that pursuit without violence, the threat of violence or other safety concerns. To accomplish these goals, schools must assess their risk factors, needs, local resources and existing efforts and strategies
